After the success of the exhibition « F. Pompon | Le Mouvement et la Forme », a set of about forty pieces by the Burgundian master, especially at the publication of the new catalogue raisonné, UDB is delighted to announce its participation in BRAFA Art fair 26, from January 25 to February 1st. For this edition, we have selected in our collections some masterpieces from 19<sup>th</sup> to the 20<sup>th</sup> centuries as well as several contemporary pieces.

The original wax model of the *Éléphant d'Asie* by **Antoine-Louis Barye**, in its display case made for the retrospective exhibition in 1889 at the Fine Arts School in Paris. Original plasters, closest possible pieces to the artist's hands, are very rare on the market, most of those being in international museum's collections at the MET or at the Louvre.

The transition to Modernity will be embodied by the work of Meudon Master, **Auguste Rodin**, with an exceptional example of the penultimate model of the *Tête de Balzac*, early cast by Griffoul circa 1890, with a nervous casting, a remarkable linen effect, from the covering of the sketch in Rodin's creative process.

An other contemporary of Rodin, **Bourdelle** offers us an head of *Beethoven à la colonne* with a particular story. We have the letters between the sculptor and the patron of this work, the journalist and essayist Henriette Charasson. This young woman is then the author of the *Jules Tellier* that was admired by Bourdelle, as it is pointed out in his letters. From the same period and in a symbolist vein, an elegant marble by **Naoum Aronson**. This Belarusian sculptor worked in Paris during the 1900s and is considered for the quality of his direct carves in particular in marble and stone, as here a marble of Thasos.

A beautiful selection of animal models from the 1930s whose highlight will be this *Jaguar accroupi* by **Rembrandt Bugatti**, a lifetime cast by Hébrard.

The scenography of this 2026 edition will leave great space to furniture and design, with the presentation of armchairs by **Jean-Marie Fiori**, with antique references.

Well known to our belgian collectors, **Jivko** will show his latest version of a ceremonial console representing a heron hunting among water lilies, with great lightness.

Finally, the Gallery will be pleased to present a selection of subjects by the exhibition designer **Hubert le Gall**, with playful and animal subject furnitures.

The UDB selection will show an overview of sculptures from the 19<sup>th</sup> to 20<sup>th</sup> centuries with an approach of museum quality and decorative aesthetic.
